

DocID / DocID Enterprise

The trustworthy solution for adding Document IDs to Word documents, Document ID is fully-customizable, removable with a single click, and guaranteed to NEVER damage existing document content and to ALWAYS be correct and complete.

DocID's key features:

- Inserts a Document ID in the header, footer, or body of any document automatically
- Allows full customizing to include document number, version, any document profile information, as well as static text
- Supports first page, last page, all pages, all pages except first page, etc. in the header, footer, or body
- Permits manual or automatic ID updating during open, save, save as, edit profile (properties) or print commands
- Integrates flexibly with legacy ID systems to support previously marked documents
- Allows setting for no ID in specific documents or sections

DocID Enterprise's additional features:

- Supports multiple ID layout definitions, including "Personal" and "Shared" layouts for centralized management
- Enables automatic ID layout selection based on any combination of metadata on a specific document
- Allows documents created or edited anywhere in your enterprise to have the correct ID layout for the Author, type of document, Client, Matter, or any combination of these values and more

The benefits to you:

- Serves your firm with perfect safety, accuracy and completeness, regardless of where a document is created or edited
- Enterprise Edition provides for even greater configuration and document identification functionality

Regardless of which version is appropriate for your firm, DocID or DocID Enterprise, you will experience flawless identification procedures.
