

Leading London-based commercial firm Kerman & Co selects NetDocuments native cloud-based document and email management platform

Leading UK-based firm, Kerman & Co, upgrades its document and email management platform for improved usability, security, and productivity across its offices and personnel.

KERMAN & CO

NetDocuments, the leading native cloud document and email management (DMS) provider for law firms and corporate legal departments, announced that Kerman & Co has completed its DMS selection process and has selected NetDocuments as the DMS platform that will modernise their technology and improve DMS usability, security, and information governance.

Kerman & Co, a full-service commercial firm based in London, services leading regional and global clients across a number of commercial sectors. "We take pride in the diversity of our client base and legal professionals, and are squarely committed to standing by our values of providing exceptional legal services to our clients while continually improving our security and usability initiatives," Managing Partner, Daniel O'Connell commented. "We found NetDocuments to be the clear solution for innovation around the DMS and truly the platform that will elevate our practice and modernise our technology."
