

# Take a breath.

NetDocuments gives you back control of document lifecycle management.

**General Counsel is being increasingly pressured these days. As if looking after the legal work wasn't enough, you're increasingly tasked with risk, compliance, ethics and strategy as well.**

The last thing you need to worry about is the integrity of documents and emails.

So take a breath and let technology take the strain.

As the world's leading cloud-based document management solution, NetDocuments lifts the complexity of electronic document management off your shoulders. In its place we provide a secure, intuitive, feature-rich interface through which all your documents and matter files can be accessed instantly.

NetDocuments is the leading security-as-a-service platform for cloud-based document and email management for legal teams. And the NetDocuments solution is now being delivered by Tikit, a part of BT and a world leader in legal technology solutions. You're in safe hands.

### **Better for efficiency.**

- Better management and control of documents and emails
- Wide functionality including excellent search-ability so documents are quickly found
- Your team can get work done at any location, in any time zone, on any device
- Secure sharing enables efficient collaboration with internal clients and external parties
- Customised to fit your workflow needs and boost effectiveness
- A quick set-up and easy-to-use interface bring quick utilisation.

### **Better for cost.**

- Better process efficiency enables higher productivity
- No capital investment required
- Enables more efficient resource allocation
- No more need for an expensive document storage infrastructure
- Simplifies addressing disaster recovery, excess capacity and contingency planning
- Flexible per user pricing and monthly fee based.

### **Better for governance.**

- High level advanced security
- Better for risk mitigation
- Better for resilience
- Version control management
- Document audit trails from creation to disposal
- Better for compliance.

**You need to navigate a complex and fast changing world.  
Make one thing a lot less complicated.**
