

# NetDocuments - HighQ Connector

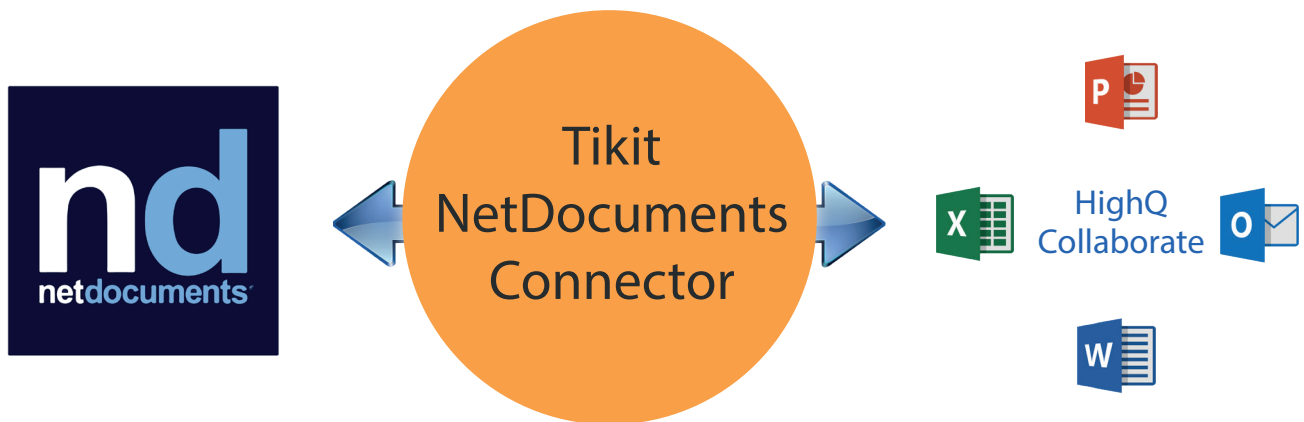

Tikit's NetDocuments connector for HighQ Collaborate closes the gap between your NetDocuments document management system (DMS) and the HighQ Collaborate platform.

## What does the Tikit NetDocuments Connector do?

It enables you to upload and share documents stored in NetDocuments with HighQ Collaborate, meaning you and your clients can benefit from the collaborative features of HighQ, while still maintaining custody of the document within NetDocuments .

## Benefits

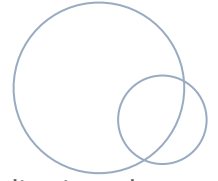

- **2 way Synchronization** – new documents uploaded to HighQ can be saved directly into NetDocuments as new documents.
- **Seamless Integration** – no need to export documents from NetDocuments to upload them to HighQ Collaborate.
- **Integrated Large File Send** - Ability to use HighQ's 'Large File Send' functionality to share documents and apply the necessary sharing options, without leaving the NetDocuments application.
- **Audit Trail** - NetDocuments - HighQ activity part of NetDocuments audit trail.
- **Awareness** - documents uploaded in Collaborate are identified as not synched, is being synched, or is already synched.
- **Auto Save** - uploaded documents and folders back from HighQ Collaborate into NetDocuments.
- **Folder Linking** - for automatic synchronization of documents, folders and versions from NetDocuments to your Collaborate site.

# Tikit Carpe Diem NetDocuments Connector

Operational efficiency is top of the agenda for the modern law firm. Firms need to ensure that the applications they are using complement each other to maximize their respective value. The Tikit Carpe Diem / NetDocuments Connector has been designed with this in mind. It queries document and email activity within NetDocuments for display and potential conversion to time entries within Carpe Diem.

## Benefits

- **Automation** – Using TimeFinder technology, the Carpe Diem/NetDocuments connector finds missing time by analyzing the documents and emails the attorney has worked on during that day as recorded in NetDocuments.
- **Transparency** – By ensuring all time worked on every document, attorneys are able to provide greater visibility and accuracy of time spent to their clients.
- **Integration** - Using two market-leading applications in unison streamlines the flow of data and provides a better experience for users throughout the firm.

## Why Tikit?

- **Knowledge** – Unparalleled knowledge of time recording and document management within the legal, accounting and professional services industries.
- **Investment** – Backed by a FTSE 100 company, we have the resources to continually invest in the development of our time recording solution.
- **Experience** - We have accumulated unrivalled experience in both time recording and document management and have a proven track record of their deployment in a law firm environment.
- **Support** - Tikit Carpe Diem is backed by an ISO9001 certified support service that is available 24 x 7.
